

Le Club wc2

Main Description:

Originally built to be a circus, water spectacle and a music hall all in one; a simple entrance foyer connected to 'The Cabin', a bar designed to resemble an ocean liner which fitted with the venue's water circus theme. However, the highlight of the building was undoubtedly the central circus area which was built on hydraulic ramps and at its lowest level could be flooded with 100,000 gallons of water.

The venue has been brought back to its former glory with a Baroque-inspired interior, circus acts, folie bergere dancers, burlesque entertainment and cutting edge music influenced by electro glam pop and dance, as well as commercial house and disco, Cirque is fast becoming the ultimate Superclub in the UK.

The venue is now solely used for corporate and private events and presents a host of options for your event, from a cabaret inspired banquet for 200 to an all-out party for 2000!

Capacities:

Reception / Club	2000
Banquet	400
Theatre Style	500
