

## Palace: NW1

### Main Description:

A six month, multi million pound restoration project was undertaken with the aim of creating a 21st Century entertainment venue from what was left of the glorious 19th Century building.

The all new venue reopened in September 2005 and represents a versatile, state of the art venue which is adaptable for multiple uses whether it be for the intended purpose of small intimate cabaret, award ceremonies, secret gigs or headline rock concerts: the venue is also just as suitable for a banquet or a really different conference venue.

The refit of the venue also included a superb sound system by JBL and lighting installation to match.

The venue was voted the UK's best live entertainment venue in 2005 by BEDA.

### Capacities:

Banquet	210
Reception / Party	1000 → 1500
Theatre	300

Palace also offers ideal meet & greet areas and a VIP area.
